

# Got Rats?

Here are some tips to prevent them without poison

## DO NOT USE:

**Snap traps** in the open landscape. They can maim and harm other animals.

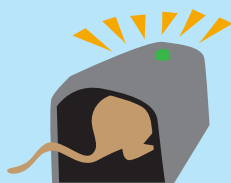

**Sticky traps** or glue boards. They cause horrific suffering and other animals get caught in them, including songbirds.

**Rodenticides:** Rat poison kills birds and wildlife, not just rats. When a hawk, owl, or bobcat eats a poisoned rat, they too, can become very ill or perish of secondary poisoning. Rat poison can also poison your dog or cat.

## O.K. TO USE:

- **Electronic traps** (only in safe locations) like the Raticator or other rat "zapper."
- **Cayenne pepper** sprinkled on rat tails to deter them.
- **Dry ice** in rat burrows.
- **A24 trap** by Automatic Trap.

**RAPTORS  
ARE THE  
SOLUTION**
